

DHANYA D T

dhanyadt6@gmail.com | 8861046052 | Bengaluru, India | [LinkedIn](#) | [GitHub](#)

OBJECTIVE

Computer Science student (Cybersecurity) with hands on experience building and deploying full stack web applications. Seeking entry level software development roles where I can contribute across the stack and grow with strong engineering skills.

EXPERIENCE

Full Stack Developer Intern – Infosys Springboard | Jan 2026 – Apr 2026

Project: WasteZero – Smart Waste Pickup & Recycling Platform | MERN Stack | [GitHub](#) | [Live](#)

- Architected and implemented role based access control with JWT authentication across 3 user roles including protected middleware and role gated API endpoints.
- Built 20+ REST APIs including authentication, CRUD operations, centralized error handling and input validation.
- Engineered real time bidirectional messaging using Socket.IO with JWT authenticated WebSocket connections and MongoDB message persistence, enabling live communication between citizens and recyclers.
- Developed a skill and location based matching algorithm to pair citizens with the most relevant recyclers, reducing manual search time, built an admin dashboard with user moderation controls, analytics, and downloadable reports.
- Led coordinated cross-team code integration using Git, maintaining a clean main branch throughout a 4-month collaborative development cycle.

PROJECTS

Contact Center Knowledge Management Tool | *Node.js, Express.js, MongoDB, JavaScript* | [GitHub](#) | [Live](#)

- Built a full-stack support platform featuring a chatbot interface integrated via REST API and a decision tree troubleshooting engine, enabling users to resolve common issues through guided self-service workflows.
- Implemented a secure admin dashboard with JWT authentication for managing knowledge base categories, articles, and customer message threads.

ExpenseWise – Expense Tracker | *React.js, Chart.js, JavaScript, CSS, HTML, EmailJS*

- Built an interactive single-page application with real-time expense tracking, dynamic Chart.js visualizations of spending by category, and automated login alert emails via EmailJS.
- Implemented expense categorization, edit and delete functionality and date-based filtering to generate weekly, monthly, and yearly spending insights.

SKILLS

Programming: Python, Java, JavaScript (ES6+)

Frontend: React.js, HTML5, CSS3

Backend & APIs: Node.js, Express.js, Flask, REST APIs, Swagger/OpenAPI, WebSockets - Socket.IO

Testing: Pytest, Postman

Auth & Security: JWT, RBAC, bcrypt, protected middleware

Databases: MongoDB, SQL

Tools: Git, GitHub, Render, Vercel

Soft Skills: Leadership, Collaboration, Communication

EDUCATION

Presidency University | 2022 – 2026

Bachelor of Technology in Computer Science (Cybersecurity) | CGPA: 8.90 | Degree Conferral: November 2026

Reva Independent PU College | 2020 – 2022

11th–12th Grade | 94.16%

CERTIFICATIONS

Infosys Springboard | Explore Machine Learning with Python

Google Developers Group | Generative AI

ACTIVITIES

Treasurer, Presidency University Toastmasters Club | Sept 2024 – Oct 2025

Managed club finances and developed public speaking and evaluation skills through regular competitive and structured sessions.
